-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: in claim 1, line 10, “a through hole” should be --the through hole--, as “a through hole” was previously recited in line 6. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is indefinite as it recites that the straps can be “internal straps”; however, claim 1 recites that the straps are disposed on an outer circumference of the airbag. It is unclear how “internal straps” would be disposed on the outer circumference. Additionally, the internal straps shown in Figures 7-9 do not pass through the through hole.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3616

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis (US 5,871,230).

Lewis shows an airbag (18; see Figure 3) with a strap (23) passing through a through hole (21a, 21b) to be disposed on the outer circumference (at least partially, see Figure 4).

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Brannon et al. (US 6,505,853).

Lewis shows an airbag (see Figure 2) with a strap (98) passing through a through hole (82) to be disposed on the outer circumference (see Figure 2).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hawthorn et al. shows an airbag of interest. Miyata shows an airbag and strap of interest. Kassman et al. shows an airbag strap of interest.
